Association:

Systems Engineering Society of Australia (SESA)

Name of Event:

System Engineering and Test & Evaluation (SETE) 2011 Conference

Delegates:

216 delegates and trade representatives

Destination:

Rydges Lakeside Canberra, Australian Capital Territory

When:

2 – 4 May 2011

The Systems Engineering Society of Australia (SESA) is the Technical Society of Engineers Australia and is responsible for providing its members with opportunities to broaden their understanding of, and to advance the practice of, Systems Engineering. Since 1999, events have been conducted in collaboration with the Southern Cross Chapter of the International Test and Evaluation Association (ITEA), and the event has been titled SETE for (Systems Engineering and Test & Evaluation).

The 2011 Conference was staged at Rydges Lakeside Canberra, with 186 representatives attending from around Australia. The trade exhibition consisted of 10 exhibiting companies.

Highlights of the conference program include a keynote presentation by Samantha Brown, the INCOSE President, along with the opportunity for a number of Engineers around Australia to present their current work and research to the delegates.

The conference dinner took place at Rydges Lakeside Canberra with entertainment provided by comedian Jackie Loeb.

sapmea is once again looking forward to the opportunity of working with SESA and the Organising Committee on SETE 2012 to take place in Brisbane at the Brisbane Convention and Exhibition Centre.
